# **WEATHER OF CONCERN**

## **Weather of Concern**

- A moist Pacific storm system will move over the West Coast late this week, with increasing chances of showers along the Central Coast Friday then rain should spread across all of Southwest California Saturday through Sunday.
- It looks like there is the potential for mostly light to moderate rain, with local heavy rain not out of the question especially along south-facing slopes.
- Snow levels will be high, near or above 8,000 feet, and some gusty southerly winds are expected at times mainly over the mountains and in the Antelope Valley.
- Potential impacts will include a small chance of mud and debris flows in and below recent burn areas, slick roadways, and urban and small stream flooding.

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

The wet unsettled weather pattern will continue for the next week and beyond. The weather system that moved in last night brought S-SW winds with gusts to 30-40 mph and widespread rain with snow levels near 4000 ft along the OR state line and 6000 ft in the Tahoe area. Today the precipitation will be in the form of scattered showers, with similar snow levels. Isolated thunderstorms are possible. Snow levels will remain about the same Friday and Friday night as the showers diminish. SW winds with gusts to 30-40 mph are still expected over the higher terrain in the north and east today, but not on Friday.

Another Pacific low pressure system will target Central CA Saturday and Sunday. Scattered rain showers will spread over the southern half of the Northern California region. The remainder of the region will be partly cloudy with above normal temperatures. High pressure moving overhead on Monday will bring to partly cloudy and warmer than normal conditions region-wide. A few mountain showers may linger from the weekend system. A stronger system will arrive on Tuesday. S-SW winds and clouds will increase during the day, and the first wave of precipitation will move onshore by midday. Snow levels will initially be above 6000 ft, but they will drop to 2000-4000 ft on Wednesday as colder air moves in. Wet unsettled weather from this system will likely persist through the end of the week.

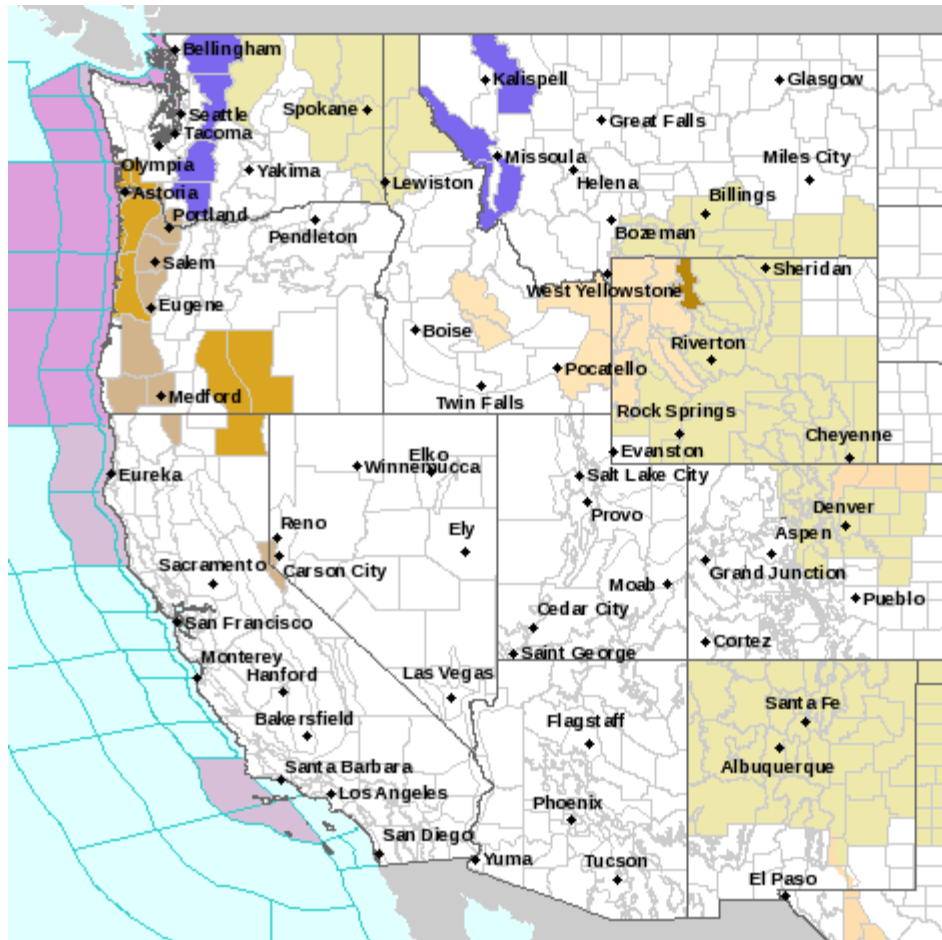

## **SOUTHERN CALIFORNIA**

There will be little change in the weather today as a weak ridge of high pressure remains over California. Maximum temperatures will be 5 to 10 degrees above normal, with mid 50s to mid 60s across the mountains and upper 60s and 70s in the valleys. Minimum humidity will increase throughout the day. Winds will be light. Zonal flow will bring near normal temperatures and high humidity to the region Friday through this weekend. A weak disturbance coming in from the southwest will bring scattered showers to Central California Friday with less than a quarter inch of rainfall. This disturbance will also bring westerly winds of 20 to 30 mph with gusts to 50 mph to the wind prone mountain and desert areas Friday. A stronger disturbance coming from the southwest will bring showers to the entire region Saturday afternoon through Sunday afternoon. With this disturbance, most foothill and mountain locations will receive between 1 and 3 inches of rainfall and most coastal and valley locations will receive between a quarter inch and an inch of rainfall. A weak ridge of high pressure will bring a few degrees of warming and a little lower humidity to the area early next week. A potential strong storm may bring significant rainfall along with strong southerly winds and below normal temperatures Wednesday through the end of next week.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-45559, 03/07/2018, 1500 hours,** As the Region VI Regional Mutual Aid Coordinator, the San Bernardino County Sheriff's Department is requesting the California National Guard (CNG), 9<sup>th</sup> Civil Support Team to assist with the security of the NASCAR Races in Fontana. This event will take place from 3/15/18 thru 3/18/18 . The CNG has accepted the mission. **Mission Ongoing.**
- **2018-LAW-45569, 03/07/18, 1602 hrs.,** The Mendocino County Sheriff's Office (MCSO) is requesting SAR resources to search for a missing female in Covelo, Ca., believed to be a victim of domestic violence. The suspect in this case is in custody however she is still missing. The search is scheduled for Sunday, 11 March. Resources to be on site at 0900 hours at the Covelo Cal Fire Station at 77251 Highway 162 in Covelo Ca. The requested resources include 75 Type II ground pounders (including MCSO personnel), armed LE escorts with marked vehicles, 4 HRD K9 teams, 24 Nano tracking devices, a UH72 helicopter for aerial searching, and a Harrier mobile hot spot. The ground searchers and LE escorts have been secured from Lake, Marin, Napa, San Mateo (BAMRU), and Sonoma counties. The HRD K9's were secured by the Cal OES LEB Canine Coordinator. The CNG approved the request for the UH-72 (Lakota), the nano tracking devices and the Harrier hot spot, along with support personnel. This will be a single day search and all out of county resources will be released Sunday afternoon. **Mission Ongoing.**
- **2018-LAW-45527, 03/05/18, 1400 hours,** Sacramento County Sheriff's Department (SCSD) is requesting resources to assist in locating the remains of a drowning victim. SCSD is requesting (2) water certified Human Remains Detection (HRD) Search Dog Teams. El Dorado County Sheriff's Department is responding with requested resources. **Update: 03/05/18, 1900 hrs,** SCSD is requesting (2) addition search dog teams to assist with the search that will take place on 03/06/18 at 0800 hrs. The Governor's Office of Emergency Services, Law Enforcement Branch is coordinating the search dog team response. **Update: 03/07/18, 1134 hrs.,** SCSD SAR Coordinator advised the victim was located and his remains recovered. All out of county resources released. **Mission Closed.**
